Aygun Dadasheva

Hello! My name is Aygun. I shall be your guide during the time of the International Chemistry Olympiad. I'm studying at chemical faculty at Baku branch of Moscow State University. I like to draw, dance, photography, reading fiction and rollerblading. One day I will embark on a journey to different cities of our world and spend there enough time to study the culture, architecture and people of that city. As any chemist I like to experiment, but not only in the laboratory but also in everyday life. I wish you good luck at the Olympiad, interesting time in Baku and many fascinating meetings. See you at the Olympiad in Moscow!
