

Fidan Mamadova

Hi! My name is Fidan. I shall be your guide in the international chemistry olimpiad. I am a master student and studying organic chemistry at Lomonosov Moscow State University. I am working as chemist at the Petrochemical Institute. I am a member of AIESEC Azerbaijan- the international organization of students. My hobbies - walking, singing, feeding cats, collect coins and candy wrapper. I think it is not enough to develop or be comprehensive by knowing only one branch of science, art or something else. That's why I interested in different branches of science, art and take a part in various conferences and trainings. I hope olimpiad will leave in your memories unforgettable moments. Good luck, friends!
