

Gamida Sadyhova

Hello! My name is Gamida, but I think it's difficult to remember, so you can call me Ida. I'm 18 years old and I'm a student of Moscow State University, Baku Branch, studying psychology. I shall be your guide during the International Chemistry Olympiad. I think it's a good experience for all of us. Knowledge is one of the important things in our society. I want to tell you something about myself. As I said, I'm studying psychology and I want to take master degree after my graduation. At the same time I want to practice with people, help them. Except psychology I'm interested in literature, photography and art. Sometimes I write and sometimes I work like model. It's easy for me to talk with new people, to get friendship with them, so I hope we will have empathy between each other. Wish you all the best and good luck!
