

## Javid Ahmadvov

My name is Javid and I am going to be your guide during International Chemistry Olympiad. Actually I have participated in many science olympiads and competitions. Thus, the experience and successes I have got during competitions helped me to continue my education in Canada, University of Alberta. By the way my faculty is chemical engineering due to my love to chemistry since childhood. Moreover being in volunteer programs, swimming and football are my hobbies. And I'm attracted by proposal to be a guide at the International Chemistry Olympiad because I will have an opportunity to speak to a lot of smart people from different countries of the world. So I wish you good luck at the Olympiad, interesting time in Baku and many fascinating meetings. See you at the Olympiad in Baku!
