

Naila Rustamova

Hello! My name is Naila. I am 19 years old and I live in Baku. I shall be your guide during the time of the International Chemistry Olympiad. I am a student on psychology faculty in MSU Baku branch. I like my university, at first for experience that I got there for my future, and people that I met here. Six days in a week we have lessons and half of my day I spend in university. When we find time for relaxing, with friends we go to student's centre, where we can read some book, play chess, watch movie or just sit and have a talk about something. Behind this I like walk and visit interesting places in my city. I like spend my time with my friends, actually, go to cinema, make photos and find interesting places with a beautiful view. I like sport; it is a big part of my time. I like riding a bicycle, skate and play football. That is a short about me and I wish you good

luck at the Olympiad, have a good time and learn many interesting things. See you at the Olympiad in Baku. May the force be with you!
