

## Nika Bezlepkina

Hello! My name is Nika. I shall be your guide during the time of the International Chemistry Olympiad. I was born and raised in Baku and admire it every day. People of Azerbaijan are friendly and hospitable. I am studying chemistry at the Baku Branch of MSU. I find chemistry fascinating and spectacular science. I adore photography and modern art. I have my photo blog and always try to catch moments of life around me. My interests include literature, music and computer games. I like to visit new places, meet people and make new friends. I wish you every success at the Olympiad! Hope you will find my homeland as beautiful as I do and will enjoy the time you spend here. Look forward to seeing you at Olympiad in Baku!
