

Rafiga Aghayeva

Hello! My name is Rafiga. I shall be your guide during the time of the International Chemistry Olympiad. I am a student of the philological faculty of Moscow State University, Baku branch. Baku is an interesting city to visit and I am sure you will like it and enjoy your days here. You will like people here – they are kind and friendly. Hope, you will also like the weather – it is sunny and even hot in summer, especially in July, but I think, you got used to it. A couple of words about my interests: I love sport, especially volleyball, but I also like watching football, although I am not very good at playing it. Besides, I like travelling and meeting new people. Therefore I am looking forward for the Olympiad to start. I wish you good luck at the Olympiad, interesting days and pleasant moments in Baku! See you soon at the Olympiad!
