

Valida Gulieva

Hi! My name is Valida. I shall be your guide during the time of the International Chemistry Olympiad in Baku. I am studying at the Baku branch of Moscow State University at the Faculty of Applied Mathematics. I was born in the northern part of Azerbaijan, in one of the most picturesque mountain regions – Guba. But I have lived and grown up in Baku, so I have always felt that I have two hometowns, and each of them is beautiful and dear to me in its own way. In addition to technical subjects, which are part of my future profession, I am also fond of science and literature, especially I am keen on reading fairy tales from around the world. I also love to draw, sing and wish to learn to play the flute and harp. Also I am a fan of archery and have a great passion as to watching football. I wish all the participants good luck at the

Olympiad and unforgettable stay in Baku. See you!
